SPICES

Red Chilli Powder

Red chilli powder is a staple spice used all around in India in various cuisines. Also known as Lal Mirch powder colloquially, this spice is treasured for its fiery hot taste which it gives to any dish it is added to. Red chillies, from which this spice is extracted by drying and grinding, is abundant in India. In fact, India is the largest exporter of dry red chillies, and in 2017 its exports represented approximately 73% of the total world exports. No wonder red chilli powder price in India is so affordable. You can buy red chilli powder from a number of brands in India, but if you want guaranteed freshness and flavour, we would suggest **Premium Mirch powder, Guntur mirch powder and longi mirch powder** which you can find on Tag Ingredients india private limited.

Red chilli powder is used in preparing everyday dishes and is thus widely known, even internationally, but did you know that it is also a treasure-trove of a number of health benefits?
